

# Year 7 Music

## Summer 2

### Instruments of the Orchestra

You will gain an understanding of the instruments used within an Orchestra, their positioning, the role of the conductor and then have opportunity to make your own orchestra ensemble on keyboards.

## Summer 1

### Introduction to Music Sequencing

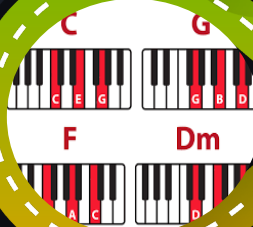

Using the VIP studios programme learn the basics of Music sequencing. Begin by mixing audio loops then creating your own beats in a range of styles from Country to Grime.

## Spring 2

### Melody and chords

Building on prior melody work students explore how chords can be taken from a scale to build an accompaniment. Students use a sequence of chords as a basis for their performance of their version of a popular song

## Spring 1

### World Music- Chinese

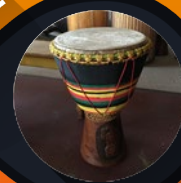

Learn what makes Chinese Music different to Western Music. Gain a deeper understanding of the instruments, how they sound and how Music is notated (Graphic score) this leads on to percussion groups.

## Autumn 1

### The Elements of Music

An introduction to the world of Rhythm and Ostinatos. Incorporating Singing and playing tuned and untuned percussion. Group work.

## Autumn 2

### Introduction to Notation and Keyboard

In this topic you will learn the basics of how to read Musical Notation. This will lead on to you notating Music which you will play on the keyboards.
